

WAGERING POOLS PERMITTED, CALCULATION OF PAYOFFS
AND DISTRIBUTION OF POOLS
APPROVED BY THE IOWA RACING AND GAMING COMMISSION

The pari-mutuel wagering pools permitted in this state shall be for win, place, show, double, exacta, trifecta, tri-super, twin-trifecta, superfecta, twin superfecta, quinella, quinella double, twin quinella, pick (3), and pick (n), place pick (n), each with separate and independent calculation and distribution. Takeout shall be deducted from each gross pool as stipulated by Iowa Code section 99D.11. The remainder of the moneys in the pool shall constitute the net pool for distribution as payoff on winning wagers.

For each wagering pool, the amount wagered on the winning betting interest or betting combinations is deducted from the net pool to determine the profit; the profit is then divided by the amount wagered on the winning betting interest or combinations, such quotient being the profit per dollar.

Either the standard or net price calculation procedure may be used to calculate single commission pools, while the net price calculation procedure must be used to calculate multi-commission pools.

Standard price calculation procedure.

SINGLE PRICE POOL (WIN POOL)

Gross pool	=	sum of wagers on all betting interests – refunds
Takeout	=	gross pool × percent takeout
Net pool	=	gross pool – takeout
Profit	=	net pool – gross amount bet on winner
Profit per dollar	=	profit/gross amount bet on winner
\$1 unbroken price	=	profit per dollar + \$1
\$1 broken price	=	\$1 unbroken price rounded down to the break point
Total payout	=	\$1 broken price × gross amount bet on winner
Total breakage	=	net pool – total payout

PROFIT SPLIT (PLACE POOL)

Profit is net pool less gross amount bet on all place finishers. Finishers split profit $\frac{1}{2}$ and $\frac{1}{2}$ (place profit), then divide by gross amount bet on each place finisher for two unique prices.

PROFIT SPLIT (SHOW POOL)

Profit is net pool less gross amount bet on all show finishers. Finishers split profit $\frac{1}{3}$ and $\frac{1}{3}$ and $\frac{1}{3}$ (show profit), then divide by gross amount bet on each show finisher for three unique prices.

Net price calculation procedure.

SINGLE PRICE POOL (WIN POOL)

Gross pool	=	sum of wagers on all betting interests – refunds
Takeout	=	gross pool × percent takeout

For each source:

Net pool	=	gross pool – takeout
Net bet on winner	=	gross amount bet on winner × (1 percent takeout)
Total net pool	=	sum of all sources net pools
Total net bet on winner	=	sum of all sources net bet on winner
Total profit	=	total net pool – total net bet on winner
Profit per dollar	=	total profit/total net bet on winner
\$1 unbroken base price	=	profit per dollar + \$1

For each source:

\$1 unbroken price	=	\$1 unbroken base price × (1 percent takeout)
\$1 broken price	=	\$1 unbroken price rounded down to the break point
Total payout	=	\$1 broken price × gross amount bet on winner
Total breakage	=	net pool – total payout

PROFIT SPLIT (PLACE POOL)

Total profit is the total net pool less the total net amount bet on all place finishers. Finishers split total profit ½ and ½ (place profit), then divide by total net amount bet on each place finisher for two unique unbroken base prices.

PROFIT SPLIT (SHOW POOL)

Total profit is the total net pool less the total net amount bet on all show finishers. Finishers split total profit 1/3 and 1/3 and 1/3 (show profit), then divide by total net amount bet on each show finisher for three unique unbroken base prices.

c. If a profit split results in only one covered winning betting interest or combination, it shall be calculated the same as a single-price pool.

d. Minimum payoffs and the method used for calculating breakage shall be established by the administrator.

e. The individual pools outlined in these rules may be given alternative names by each association, provided prior approval is obtained from the administrator.

Win pools.

a. The amount wagered on the betting interest which finishes first is deducted from the net pool, the balance remaining being the profit; the profit is divided by the amount wagered on the betting interest finishing first, such quotient being the profit-per-dollar wagered to win on that betting interest.

b. The net win pool shall be distributed as a single-price pool to winning wagers in the following precedence, based upon the official order of finish:

- (1) To those whose selection finished first; but if there are no such wagers, then
- (2) To those whose selection finished second; but if there are no such wagers, then
- (3) To those whose selection finished third; but if there are no such wagers, then
- (4) The entire pool shall be refunded on win wagers for that contest.

c. If there is a dead heat for first involving:

(1) Contestants representing the same betting interest, the win pool shall be distributed as if no dead heat occurred.

(2) Contestants representing two or more betting interests, the win pool shall be distributed as a profit split.

Table 1: WIN POOL
(Standard Price Calculation)

Sum of wagers on all betting interests =	\$194,230.00
Refunds =	\$1,317.00
Gross pool:	
Sum of wagers on all betting interests – refunds = ($\$194,230.00 - \$1,317.00$)	\$192,913.00
Percent takeout =	18%
Takeout: Gross pool \times percent takeout = ($\$192,913.00 \times 18\%$)	\$34,724.34
Net pool:	
Gross pool – takeout = ($\$192,913.00 - \$34,724.34$)	\$158,188.66
Gross amount bet on winner =	\$23,872.00
Profit:	
Net pool – gross amount bet on winner = ($\$158,188.66 - \$23,872.00$)	\$134,316.66
Profit per dollar:	
Profit/gross amount bet on winner = ($\$134,316.66 / \$23,872.00$)	\$5.6265357
\$1 unbroken price:	
Profit per dollar + \$1 = ($\$5.6265357 + \1)	\$6.6265357
Round off to nearest \$0.05 =	\$0.0265357
\$1 broken price:	
\$1 unbroken price – round off to nearest \$1.10 =	\$6.60
Total payout:	
\$1 broken price \times gross amount bet on winner = ($\$6.60 \times \$23,872.00$)	\$157,555.20
Total breakage:	
Net pool – total payout = ($\$158,188.66 - \$157,555.20$)	\$633.46
\$2 broken price:	
\$1 broken price \times 2 = ($\$6.60 \times 2$)	\$13.20

Place pools.

a. The amounts wagered to place on the first two betting interests to finish are deducted from the net pool, the balance remaining being the profit; the profit is divided into two equal portions, one being assigned to each winning betting interest and divided by the amount wagered to place on that betting interest, the resulting quotient being profit per dollar wagered to place on that betting interest.

b. The net place pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) If contestants of a coupled entry or mutuel field finished in the first two places, as a single-price pool to those who selected the coupled entry or mutuel field; otherwise

(2) As a profit split to those whose selection is included within the first two finishers; but if there are no such wagers on one of those two finishers, then

(3) As a single-price pool to those who selected the one covered betting interest included within the first two finishers; but if there are no such wagers, then

(4) As a single-price pool to those who selected the third-place finisher; but if there are no such wagers, then

(5) The entire pool shall be refunded on place wagers for that contest.

c. If there is a dead heat for first involving:

(1) Contestants representing the same betting interest, the place pool shall be distributed as a single-price pool.

(2) Contestants representing two or more betting interests, the place pool shall be distributed as a profit split.

d. If there is a dead heat for second involving:

(1) Contestants representing the same betting interest, the place pool shall be distributed as if no dead heat occurred.

(2) Contestants representing two or more betting interests, the place pool is divided with one-half of the profit distributed to place wagers on the betting interest finishing first and the remainder is distributed equally among place wagers on those betting interests involved in the dead heat for second.

**Table 2: PLACE POOL
(Standard Price Calculation)**

Sum of wagers on all betting interests =	\$194,230.00
Refunds =	\$1,317.00
Gross pool:	
Sum of wagers on all betting interests – refunds =	\$192,913.00
Percent takeout =	18%
Takeout: Gross pool × percent takeout =	\$34,724.34
Net pool:	
Gross pool – takeout =	\$158,188.66
Gross amount bet on 1st place finisher =	\$23,872.00
Gross amount bet on 2nd place finisher =	\$12,500.00
Profit:	
Net pool – gross amount bet on 1st place finisher	
– gross amount bet on 2nd place finisher =	\$121,816.66
Place profit:	
Profit/2 =	\$60,908.33
Profit per dollar for 1st place:	
Place profit/gross amount bet on 1st place finisher =	\$2.5514548

\$1 unbroken price for 1st place:

Profit per dollar for 1st place + \$1 = \$3.5514548

Profit per dollar for 2nd place:

Place profit/gross amount bet on 2nd place finisher = \$4.8726664

\$1 unbroken price for 2nd place:

Profit per dollar for 2nd place + \$1 = \$5.8726664

Show pools.

a. The amounts wagered to show on the first three betting interests to finish are deducted from the net pool, the balance remaining being the profit; the profit is divided into three equal portions, one being assigned to each winning betting interest and divided by the amount wagered to show on that betting interest, the resulting quotient being the profit per dollar wagered to show on that betting interest.

b. The net show pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) If contestants of a coupled entry or mutuel field finished in the first three places, as a single price pool to those who selected the coupled entry or mutuel field; otherwise

(2) If contestants of a coupled entry or mutuel field finished as two of the first three finishers, the profit is divided with two-thirds distributed to those who selected the coupled entry or mutuel field and one-third distributed to those who selected the other betting interest included within the first three finishers; otherwise

(3) As a profit split to those whose selection is included within the first three finishers; but if there are no such wagers on one of those finishers, then

(4) As a profit split to those who selected one of the two covered betting interests included within the first three finishers; but if there are no such wagers on two of those three finishers, then

(5) As a single-price pool to those who selected the one covered betting interest included within the first three finishers; but if there are no such wagers, then

(6) As a single-price pool to those who selected the fourth-place finisher; but if there are no such wagers, then

(7) The entire pool shall be refunded on show wagers for that contest.

c. If there is a dead heat for first involving:

(1) Two contestants representing the same betting interest, the profit is divided with two-thirds distributed to those who selected the first-place finishers and one-third distributed to those who selected the betting interest finishing third.

(2) Three contestants representing a single betting interest, the show pool shall be distributed as a single-price pool.

(3) Contestants representing two or more betting interests, the show pool shall be distributed as a profit split.

d. If there is a dead heat for second involving:

(1) Contestants representing the same betting interest, the profit is divided with one-third distributed to those who selected the betting interest finishing first and two-thirds distributed to those who selected the second-place finishers.

(2) Contestants representing two betting interests, the show pool shall be distributed as a profit split.

(3) Contestants representing three betting interests, the show pool is divided with one-third of the profit distributed to show wagers on the betting interest finishing first and the remainder is distributed equally among show wagers on those betting interests involved in the dead heat for second.

e. If there is a dead heat for third involving:

(1) Contestants representing the same betting interest, the show pool shall be distributed as if no

dead heat occurred.

(2) Contestants representing two or more betting interests, the show pool is divided with two-thirds of the profit distributed to show wagers on the betting interests finishing first and second and the remainder is distributed equally among show wagers on those betting interests involved in the dead heat for third.

**Table 3: SHOW POOL
(Standard Price Calculation)**

Sum of wagers on all betting interests =	\$194,230.00

Double pools.

- a.* The double requires selection of the first-place finisher in each of two specified contests.
- b.* The net double pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (1) As a single-price pool to those whose selection finished first in each of the two contests; but if there are no such wagers, then
 - (2) As a profit split to those who selected the first-place finisher in either of the two contests; but if there are no such wagers, then
 - (3) As a single-price pool to those who selected the one covered first-place finisher in either contest; but if there are no such wagers, then
 - (4) As a single-price pool to those whose selection finished second in each of the two contests; but if there are no such wagers, then
 - (5) The entire pool shall be refunded on double wagers for those contests.
- c.* If there is a dead heat for first in either of the two contests involving:
 - (1) Contestants representing the same betting interest, the double pool shall be distributed as if no dead heat occurred.
 - (2) Contestants representing two or more betting interests, the double pool shall be distributed as a profit split if there is more than one covered winning combination.
- d.* Should a betting interest in the first half of the double be scratched prior to the first double contest being declared official, all money wagered on combinations including the scratched betting interest shall be deducted from the double pool and refunded.
- e.* Should a betting interest in the second half of the double be scratched prior to the close of wagering on the first double contest, all money wagered on combinations including the scratched betting interest shall be deducted from the double pool and refunded.
- f.* Should a betting interest in the second half of the double be scratched after the close of wagering on the first double contest, all wagers combining the winner of the first contest with the scratched betting interest in the second contest shall be allocated a consolation payoff. In calculating the consolation payoff the net double pool shall be divided by the total amount wagered on the winner of the first contest and an unbroken consolation price obtained. The broken consolation price is multiplied by the dollar value of wagers on the winner of the first contest combined with the scratched betting interest to obtain the consolation payoff. Breakage is not declared in this calculation. The consolation payoff is deducted from the net double pool before calculation and distribution of the winning double payoff. Dead heats including separate betting interests in the first contest shall result in a consolation payoff calculated as a profit split.
- g.* If either of the double contests is canceled prior to the first double contest, or the first double contest is declared "no contest," the entire double pool shall be refunded on double wagers for those contests.
- h.* If the second double contest is canceled or declared "no contest," after the conclusion of the first double contest, the net double pool shall be distributed as a single-price pool to wagers selecting the winner of the first double contest. In the event of a dead heat involving separate betting interests, the net double pool shall be distributed as a profit split.

Pick three pools.

- a. The pick three requires selection of the first-place finisher in each of three specified contests.
- b. The net pick three pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:
 - (1) As a single-price pool to those whose selection finished first in each of the three contests; but if there are no such wagers, then
 - (2) As a single-price pool to those who selected the first-place finisher in any two of the three contests; but if there are no such wagers, then
 - (3) As a single-price pool to those who selected the first-place finisher in any one of the three contests; but if there are no such wagers, then
 - (4) The entire pool shall be refunded on pick three wagers for those contests.
- c. If there is a dead heat for first in any of the three contests involving:
 - (1) Contestants representing the same betting interest, the pick three pool shall be distributed as if no dead heat occurred.
 - (2) Contestants representing two or more betting interests, the pick three pool shall be distributed as a single-price pool with each winning wager receiving an equal share of the profit.
- d. Should a betting interest in any of the three pick three contests be scratched, the actual favorite, as evidenced by total amounts wagered in the win pool at the close of wagering on that contest, shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the win-pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number. The totalizator shall produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination.
- e. If all three pick three contests are canceled or declared “no contest,” the entire pool shall be refunded on pick three wagers for those contests.
- f. If one or two of the pick three contests are canceled or declared “no contest,” the pick three pool will remain valid and shall be distributed in accordance with “b” above.

Pick (n) pool.

- a. The pick (n) requires selection of the first-place finisher in each of a designated number of contests. The association must obtain written approval from the administrator concerning the scheduling of pick (n) contests, the designation of one of the methods prescribed in “b” below and the amount of any cap to be set on the carryover. Any changes to the approved pick (n) format require prior approval from the administrator.
- b. The pick (n) pool shall be apportioned under one of the following methods:
 - (1) Method 1, pick (n) with carryover. The net pick (n) pool and carryover, if any, shall be distributed as a single-price pool to those who selected the first-place finisher in each of the pick (n) contests, based upon the official order of finish. If there are no such wagers, then a designated percentage of the net pool shall be distributed as a single-price pool of those who selected the first-place finisher in the greatest number of pick (n) contests; and the remainder shall be added to the carryover.
 - (2) Method 2, pick (n) with minor pool and carryover. The major share of the net pick (n) pool

and the carryover, if any, shall be distributed to those who selected the first-place finisher in each of the pick (n) contests, based upon the official order of finish. The minor share of the net pick (n) pool shall be distributed to those who selected the first-place finisher in the second greatest number of pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher of all pick (n) contests, the minor share of the net pick (n) pool shall be distributed as a single-price pool to those who selected the first-place finisher in the greatest number of pick (n) contests; and the major share shall be added to the carryover.

(3) Method 3, pick (n) with no minor pool and no carryover. The net pick (n) pool shall be distributed as a single-price pool to those who selected the first-place finisher in the greatest number of pick (n) contests, based upon the official order of finish. If there are no winning wagers, the pool is refunded.

(4) Method 4, pick (n) with minor pool and no carryover. The major share of the net pick (n) pool shall be distributed to those who selected the first-place finisher in the greatest number of pick (n) contests, based upon the official order of finish. The minor share of the net pick (n) pool shall be distributed to those who selected the first-place finisher in the second greatest number of pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in a second greatest number of pick (n) contests, the minor share of the net pick (n) pool shall be combined with the major share for distribution as a single-price pool to those who selected the first-place finisher in the greatest number of pick (n) contests. If the greatest number of first-place finishers selected is one, the major and minor shares are combined for distribution as a single-price pool. If there are no winning wagers, the pool is refunded.

(5) Method 5, pick (n) with minor pool and no carryover. The major share of net pick (n) pool shall be distributed to those who selected the first-place finisher in each of the pick (n) contests, based upon the official order of finish. The minor share of the net pick (n) pool shall be distributed to those who selected the first-place finisher in the second greatest number of pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first-place finisher in all pick (n) contests, the entire net pick (n) pool shall be distributed as a single-price pool to those who selected the first-place finisher in the greatest number of pick (n) contests. If there are no wagers selecting the first-place finisher in a second greatest number of pick (n) contests, the minor share of the net pick (n) pool shall be combined with the major share for distribution as a single-price pool to those who selected the first-place finisher in each of the pick (n) contests. If there are no winning wagers, the pool is refunded.

(6) Method 7, Pick (n) with Carryover and "Unique Winning Ticket" Provision: The net Pick (n) pool and carryover, if any, shall be distributed to the holder of a unique winning ticket that selected the first-place finisher in each of the Pick (n) contests, based upon the official order of finish. If there is no unique ticket selecting the first-place finisher in each of the Pick (n) contests, or if there are no wagers selecting the first-place finisher of all Pick (n) contests, the minor share of the net Pick (n) pool shall be distributed as a single price pool to those who selected the first-place finisher in the greatest number of Pick (n) contests, and the major share shall be added to the carryover. Associations may suspend previously approved unique winning ticket wagering with the prior approval of the Commission. Any carryover shall be held until the suspended unique winning ticket wagering is reinstated. Where there is no correct selection of the first-place finisher in at least one of the Pick (n) contests, based upon the official order of finish, the day's net pool shall be refunded and the previous carryover pool amount, if any, shall be carried over to the next scheduled corresponding pool. In obtaining authorization for operating the Pick (n) pool under this subsection, associations must clearly identify which definition under paragraph 16(b) will be relied upon for determining the existence of a unique winning ticket.

c. If there is a dead heat for first in any of the pick (n) contests involving:

(1) Contestants representing the same betting interest, the pick (n) pool shall be distributed as if no dead heat occurred.

(2) Contestants representing two or more betting interests, the pick (n) pool shall be distributed as

a single-price pool with each winning wager receiving an equal share of the profit.

d. Should a betting interest in any of the pick (n) contests be scratched, the actual favorite, as evidenced by total amounts wagered in the win pool at the host association for the contest at the close of wagering on that contest, shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number. The totalizator shall produce reports showing each of the wagering combinations with substituted betting interests which became winners as a result of the substitution, in addition to the normal winning combination.

e. The pick (n) pool shall be canceled and all pick (n) wagers for the individual performance shall be refunded if:

(1) At least two contests included as part of the pick three are canceled or declared "no contest."

(2) At least three contests included as part of a pick four, pick five, or pick six are canceled or declared "no contest."

(3) At least four contests included as part of a pick seven, pick eight, or pick nine are canceled or declared "no contest."

(4) At least five contests included as part of a pick ten are canceled or declared "no contest."

f. If at least one contest included as part of a pick (n) is canceled or declared "no contest," but not more than the number specified in "e" above, the net pool shall be distributed as a single-price pool to those whose selection finished first in the greatest number of pick (n) contests for that performance. Such distribution shall include the portion ordinarily retained for the pick (n) carryover but not the carryover from previous performances.

g. The pick (n) carryover may be capped at a designated level approved by the administrator so that if, at the close of any performance, the amount in the pick (n) carryover equals or exceeds the designated cap, the pick (n) carryover will be frozen until it is won or distributed under other provisions of this rule. After the pick (n) carryover is frozen, 100 percent of the net pool, part of which ordinarily would be added to the pick (n) carryover, shall be distributed to those whose selection finished first in the greatest number of pick (n) contests for that performance.

h. A written request for permission to distribute the pick (n) carryover on a specific performance may be submitted to the administrator. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

i. Should the pick (n) carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first-place finisher in each of the pick (n) contests, the entire pool shall be distributed as a single-price pool to those whose selection finished first in the greatest number of pick (n) contests. The pick (n) carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

(1) Upon written approval from the administrator as provided in "h" above.

(2) Upon written approval from the administrator when there is a change in the carryover cap, a change from one type of pick (n) wagering to another, or when the pick (n) is discontinued.

(3) On the closing performance of the meet or split meet.

j. If, for any reason, the pick (n) carryover must be carried over to the corresponding pick (n) pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the administrator. The pick (n) carryover plus accrued interest shall then be added to the net pick (n) pool of the following meet on a date and performance so designated by the administrator.

k. With the written approval of the administrator, the association may contribute to the pick (n) carryover a sum of money up to the amount of any designated cap.

l. Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining is strictly prohibited, unless permission has been granted by the administrator. This shall not prohibit necessary communication between totalizator and pari-mutuel department employees for processing of pool data.

m. The association may suspend previously approved pick (n) wagering with the prior approval

of the administrator. Any carryover shall be held until the suspended pick (n) wagering is reinstated. An association may request approval of a pick (n) wager or separate wagering pool for specific performances.

Place pick (n) pools.

a. The place pick (n) requires selection of the first- or second-place finisher in each of a designated number of contests. The association must obtain written approval from the administrator concerning the scheduling of place pick (n) contests, the designation of one of the methods prescribed in “*b*” below, the distinctive name identifying the pool and the amount of any cap to be set on the carryover. Any changes to the approved place pick (n) format require prior approval from the administrator.

b. The place pick (n) pool shall be apportioned under one of the following methods:

(1) Method 1, pick (n) with carryover. The net place pick (n) pool and carryover, if any, shall be distributed as a single-price pool to those who selected the first- or second-place finisher in each of the place pick (n) contests, based upon the official order of finish. If there are no such wagers, then a designated percentage of the net pool shall be distributed as a single-price pool of those who selected the first- or second-place finisher in the greatest number of place pick (n) contests; and the remainder shall be added to the carryover.

(2) Method 2, place pick (n) with minor pool and carryover. The major share of the net place pick (n) pool and the carryover, if any, shall be distributed to those who selected the first- or second-place finisher in each of the place pick (n) contests, based upon the official order of finish. The minor share

of the net place pick (n) pool shall be distributed to those who selected the first- or second-place finisher in the second greatest number of place pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first- or second-place finisher of all place pick (n) contests, the minor share of the net place pick (n) pool shall be distributed as a single-price pool to those who selected the first- or second-place finisher in the greatest number of place pick (n) contests; and the major share shall be added to the carryover.

(3) Method 3, place pick (n) with no minor pool and no carryover. The net place pick (n) pool shall be distributed as a single-price pool to those who selected the first- or second-place finisher in the greatest number of place pick (n) contests, based upon the official order of finish. If there are no winning wagers, the pool is refunded.

(4) Method 4, place pick (n) with minor pool and no carryover. The major share of the net place pick (n) pool shall be distributed to those who selected the first- or second-place finisher in the greatest number of place pick (n) contests, based upon the official order of finish. The minor share of the net place pick (n) pool shall be distributed to those who selected the first- or second-place finisher in the second greatest number of place pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first- or second-place finisher in a second greatest number of place pick (n) contests, the minor share of the net place pick (n) pool shall be combined with the major share for distribution as a single-price pool to those who selected the first- or second-place finisher in the greatest number of place pick (n) contests. If the greatest number of first- or second-place finishers selected is one, the major and minor shares are combined for distribution as a single-price pool. If there are no winning wagers, the pool is refunded.

(5) Method 5, place pick (n) with minor pool and no carryover. The major share of net place pick (n) pool shall be distributed to those who selected the first- or second-place finisher in each of the place pick (n) contests, based upon the official order of finish. The minor share of the net place pick (n) pool shall be distributed to those who selected the first- or second-place finisher in the second greatest number of place pick (n) contests, based upon the official order of finish. If there are no wagers selecting the first- or second-place finisher in all place pick (n) contests, the entire net place pick (n) pool shall be distributed as a single-price pool to those who selected the first- or second-place finisher in the greatest number of place pick (n) contests. If there are no wagers selecting the first- or second-place finisher in a second greatest number of place pick (n) contests, the minor share of the net place pick (n) pool shall be combined with the major share for distribution as a single-price pool to those who selected the first-place finisher in each of the place pick (n) contests. If there are no winning wagers, the pool is refunded.

c. If there is a dead heat for first in any of the place pick (n) contests involving:

(1) Contestants representing the same betting interest, the place pick (n) pool shall be distributed as if no dead heat occurred.

(2) Contestants representing two or more betting interests, the place pick (n) pool shall be distributed as a single-price pool with each winning wager including each betting interest participating in the dead heat.

d. If there is a dead heat for second in any of the place pick (n) contests involving:

(1) Contestants representing the same betting interest, the place pick (n) pool shall be distributed as if no dead heat occurred.

(2) Contestants representing two or more betting interests, the place pick (n) pool shall be distributed as a single-price pool with a winning wager including the betting interest which finished first or any betting interest involved in the dead heat for second.

e. Should a betting interest in any of the place pick (n) contests be scratched, the actual favorite, as evidenced by total amounts wagered in the win pool at the host association for the contest at the close of wagering on that contest, shall be substituted for the scratched betting interest for all purposes, including pool calculations. In the event that the win pool total for two or more favorites is identical, the substitute selection shall be the betting interest with the lowest program number. The totalizator shall produce reports showing each of the wagering combinations with substituted betting

interests which became winners as a result of the substitution, in addition to the normal winning combination.

f. The place pick (n) pool shall be canceled and all place pick (n) wagers for the individual performance shall be refunded if:

(1) At least two contests included as part of a pick three are canceled or declared “no contest.”

(2) At least three contests included as part of a pick four, pick five, or pick six are canceled or declared “no contest.”

(3) At least four contests included as part of a pick seven, pick eight, or pick nine are canceled or declared “no contest.”

(4) At least five contests included as part of a pick ten are canceled or declared “no contest.”

g. If at least one contest included as part of a place pick (n) is canceled or declared “no contest,” but not more than the number specified in “*f*” above, the net pool shall be distributed as a single-price pool to those whose selection finished first or second in the greatest number of place pick (n) contests for that performance. Such distribution shall include the portion ordinarily retained for the place pick (n) carryover but not the carryover from previous performances.

h. The place pick (n) carryover may be capped at a designated level approved by the administrator so that if, at the close of any performance, the amount in the place pick (n) carryover equals or exceeds the designated cap, the place pick (n) carryover will be frozen until it is won or distributed under other provisions of this subrule. After the place pick (n) carryover is frozen, 100 percent of the net pool, part of which ordinarily would be added to the place pick (n) carryover, shall be distributed to those whose selection finished first or second in the greatest number of place pick (n) contests for that performance.

i. A written request for permission to distribute the place pick (n) carryover on a specific performance may be submitted to the administrator. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

j. Should the place pick (n) carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first- or second-place finisher in each of the place pick (n) contests, the entire pool shall be distributed as a single-price pool to those whose selection finished first or second in the greatest number of place pick (n) contests. The place pick (n) carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

(1) Upon written approval from the administrator as provided in “*i*” above.

(2) Upon written approval from the administrator when there is a change in the carryover cap, a change from one type of place pick (n) wagering to another, or when the place pick (n) is discontinued.

(3) On the closing performance of the meet or split meet.

k. If, for any reason, the place pick (n) carryover must be carried over to the corresponding place pick (n) pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the administrator. The place pick (n) carryover plus accrued interest shall then be added to the net place pick (n) pool of the following meet on a date and performance so designated by the administrator.

l. With the written approval of the administrator, the association may contribute to the place pick (n) carryover a sum of money up to the amount of any designated cap.

m. Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of live tickets remaining is strictly prohibited, unless permission has been granted by the administrator. This shall not prohibit necessary communication between totalizator and pari-mutuel department employees for processing of pool data.

n. The association may suspend previously approved place pick (n) wagering with the prior approval of the administrator. Any carryover shall be held until the suspended place pick (n) wagering

is reinstated. An association may request approval of a place pick (n) wager or separate wagering pool for specific performances.

Quinella pools.

a. The quinella requires selection of the first two finishers, irrespective of order, for a single contest.

b. The net quinella pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) If contestants of a coupled entry or mutuel field finish as the first two finishers, as a single-price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish; otherwise

(2) As a single-price pool to those whose combination finished as the first two betting interests; but if there are no such wagers, then

(3) As a profit split to those whose combination included either the first- or second-place finisher; but if there are no such wagers on one of those two finishers, then

(4) As a single-price pool to those whose combination included the one covered betting interest included within the first two finishers; but if there are no such wagers, then

(5) The entire pool shall be refunded on quinella wagers for that contest.

c. If there is a dead heat for first involving:

(1) Contestants representing the same betting interest, the quinella pool shall be distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish.

(2) Contestants representing two betting interests, the quinella pool shall be distributed as if no dead heat occurred.

(3) Contestants representing three or more betting interests, the quinella pool shall be distributed as a profit split.

d. If there is a dead heat for second involving contestants representing the same betting interest, the quinella pool shall be distributed as if no dead heat occurred.

e. If there is a dead heat for second involving contestants representing two or more betting interests, the quinella pool shall be distributed to wagers in the following precedence, based upon the official order of finish:

(1) As a profit split to those combining the winner with any of the betting interests involved in the dead heat for second; but if there is only one combination covered, then

(2) As a single-price pool to those combining the winner with the one covered betting interest involved in the dead heat for second; but if there are no such wagers, then

(3) As a profit split to those combining the betting interests involved in the dead heat for second; but if there are no such wagers, then

(4) As a profit split to those whose combination included the winner and any other betting interest and wagers selecting any of the betting interests involved in the dead heat for second; but if there are no such wagers, then

(5) The entire pool shall be refunded on quinella wagers for that contest.

Quinella double pools.

a. The quinella double requires selection of the first two finishers, irrespective of order, in each of two specified contests.

b. The net quinella double pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) If a coupled entry or mutuel field finishes as the first two contestants in either contest, as a single-price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish for that contest, as well as the first two finishers in the alternate quinella double contest; otherwise

(2) As a single-price pool to those who selected the first two finishers in each of the two quinella double contests; but if there are no such wagers, then

(3) As a profit split to those who selected the first two finishers in either of the two quinella double contests; but if there are no such wagers on one of the contests, then

(4) As a single-price pool to those who selected the first two finishers in the one covered quinella double contest; but if there are no such wagers, then

(5) The entire pool shall be refunded on quinella double wagers for those contests.

c. If there is a dead heat for first in either of the two quinella double contests involving:

(1) Contestants representing the same betting interest, the quinella double pool shall be distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish for that contest.

(2) Contestants representing two betting interests, the quinella double pool shall be distributed as if no dead heat occurred.

(3) Contestants representing three or more betting interests, the quinella double pool shall be distributed as a profit split.

d. If there is a dead heat for second in either of the quinella double contests involving contestants representing the same betting interest, the quinella double pool shall be distributed as if no dead heat occurred.

e. If there is a dead heat for second in either of the quinella double contests involving contestants representing two or more betting interests, the quinella double pool shall be distributed as profit split.

f. Should a betting interest in the first half of the quinella double be scratched prior to the first quinella double contest being declared official, all money wagered on combinations including the scratched betting interest shall be deducted from the quinella double pool and refunded.

g. Should a betting interest in the second half of the quinella double be scratched prior to the close of wagering on the first quinella double contest, all money wagered on combinations including the scratched betting interest shall be deducted from the quinella double pool and refunded.

h. Should a betting interest in the second half of the quinella double be scratched after the close of wagering on the first quinella double contest, all wagers combining the winning combination in the first contest with a combination including the scratched betting interest in the second contest shall be allocated a consolation payoff. In calculating the consolation payoff, the net quinella double pool shall be divided by the total amount wagered on the winning combination in the first contest and an unbroken consolation price obtained. The unbroken consolation price is multiplied by the dollar value of wagers on the winning combination in the first contest combined with a combination including the scratched betting interest in the second contest to obtain the consolation payoff. Breakage is not declared in this calculation. The consolation payoff is deducted from the net quinella double pool before calculation and distribution of the winning quinella double payoff. In the event of a dead heat involving separate betting interests, the net quinella double pool shall be distributed as a profit split.

i. If either of the quinella double contests is canceled prior to the first quinella double contest, or the first quinella double contest is declared "no contest," the entire quinella double pool shall be refunded on quinella double wagers for those contests.

j. If the second quinella double contest is canceled or declared "no contest" after the conclusion of the first quinella double contest, the net quinella double pool shall be distributed as a single-price pool to wagers selecting the winning combination in the first quinella double contest. If there are no wagers selecting the winning combination in the first quinella double contest, the entire quinella double pool shall be refunded on quinella double wagers for those contests.

Exacta pools.

a. The exacta requires selection of the first two finishers, in their exact order, for a single contest.

b. The net exacta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) If contestants of a coupled entry or mutuel field finish as the first two finishers, as a single-

price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish; otherwise

(2) As a single-price pool to those whose combination finished in correct sequence as the first two betting interests; but if there are no such wagers, then

(3) As a profit split to those whose combination included either the first-place betting interest to finish first or the second-place betting interest to finish second; but if there are no such wagers on one of those two finishers, then

(4) As a single-price pool to those whose combination included the one covered betting interest to finish first or second in the correct sequence; but if there are no such wagers, then

(5) The entire pool shall be refunded on exacta wagers for that contest.

c. If there is a dead heat for first involving:

(1) Contestants representing the same betting interest, the exacta pool shall be distributed as a single-price pool to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish.

(2) Contestants representing two or more betting interests, the exacta pool shall be distributed as a profit split.

d. If there is a dead heat for second involving contestants representing the same betting interest, the exacta pool shall be distributed as if no dead heat occurred.

e. If there is a dead heat for second involving contestants representing two or more betting interests, the exacta pool shall be distributed to ticket holders in the following precedence, based upon the official order of finish:

(1) As a profit split to those combining the first-place betting interest with any of the betting interests involved in the dead heat for second; but if there is only one covered combination, then

(2) As a single-price pool to those combining the first-place betting interest with the one covered betting interest involved in the dead heat for second; but if there are no such wagers, then

(3) As a profit split to those wagers correctly selecting the winner for first place and those wagers selecting any of the dead-heated betting interests for second place; but if there are no such wagers, then

(4) The entire pool shall be refunded on exacta wagers for that contest.

Trifecta pools.

a. The trifecta requires selection of the first three finishers, in their exact order, for a single contest.

b. The net trifecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) As a single-price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(4) The entire pool shall be refunded on trifecta wagers for that contest.

c. If less than three betting interests finish and the contest is declared official, payoffs will be made based upon the order of finish of those betting interests completing the contest. The balance of any selection beyond the number of betting interests completing the contest shall be ignored.

d. If there is a dead heat for first involving:

(1) Contestants representing three or more betting interests, all of the wagering combinations selecting three or more betting interests which correspond with any of the betting interests involved in the dead heat shall share in a profit split.

(2) Contestants representing two betting interests, both of the wagering combinations selecting the two dead-heated betting interests, irrespective of order, along with the third-place betting interest

shall share in a profit split.

e. If there is a dead heat for second, all of the combinations correctly selecting the winner combined with any of the betting interests involved in the dead heat for second shall share in a profit split.

f. If there is a dead heat for third, all wagering combinations correctly selecting the first two finishers, in correct sequence, along with any of the betting interests involved in the dead heat for third shall share in a profit split.

g. Coupled entries and mutuel fields shall be allowed in trifecta contests.

Superfecta pools.

a. The superfecta requires selection of the first four finishers, in their exact order, for a single contest.

b. The net superfecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish:

(1) As a single-price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(4) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(5) The entire pool shall be refunded on superfecta wagers for that contest.

c. If less than four betting interests finish and the contest is declared official, payoffs will be made based upon the order of finish of those betting interests completing the contest. The balance of any selection beyond the number of betting interests completing the contest shall be ignored.

d. If there is a dead heat for first involving:

(1) Contestants representing four or more betting interests, all of the wagering combinations selecting four betting interests which correspond with any of the betting interests involved in the dead heat shall share in a profit split.

(2) Contestants representing three betting interests, all of the wagering combinations selecting the three dead-heated betting interests, irrespective of order, along with the fourth-place betting interest shall share in a profit split.

(3) Contestants representing two betting interests, both of the wagering combinations selecting the two dead-heated betting interests, irrespective of order, along with the third-place and fourth-place betting interests shall share in a profit split.

e. If there is a dead heat for second involving:

(1) Contestants representing three or more betting interests, all of the wagering combinations correctly selecting the winner combined with any of the three betting interests involved in the dead heat for second shall share in a profit split.

(2) Contestants representing two betting interests, all of the wagering combinations correctly selecting the winner, the two dead-heated betting interests, irrespective of order, and the fourth-place betting interests shall share in a profit split.

f. If there is a dead heat for third, all wagering combinations correctly selecting the first two finishers, in correct sequence, along with any two of the betting interests involved in the dead heat for third shall share in a profit split.

g. If there is a dead heat for fourth, all wagering combinations correctly selecting the first three finishers, in correct sequence, along with any of the betting interests involved in the dead heat for fourth shall share in a profit split.

Twin quinella pools.

a. The twin quinella requires selection of the first two finishers, irrespective of order, in each of two designated contests. Each winning ticket for the first twin quinella contest must be exchanged for a free ticket on the second twin quinella contest in order to remain eligible for the second-half twin quinella pool. Such tickets may be exchanged only at attended ticket windows prior to the second twin quinella contest. There will be no monetary reward for winning the first twin quinella contest. Both of the designated twin quinella contests shall be included in only one twin quinella pool.

b. In the first twin quinella contest only, winning wagers shall be determined using the following precedence, based upon the official order of finish for the first twin quinella contest:

(1) If a coupled entry or mutuel field finishes as the first two finishers, those who selected the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish shall be winners; otherwise

(2) Those whose combination finished as the first two betting interests shall be winners; but if there are no such wagers, then

(3) Those whose combination included either the first- or second-place finisher shall be winners; but if there are no such wagers on one of those two finishers, then

(4) Those whose combination included the one covered betting interest included within the first two finishers shall be winners; but if there are no such wagers, then

(5) The entire pool shall be refunded on twin quinella wagers for that contest.

c. In the first twin quinella contest only, if there is a dead heat for first involving:

(1) Contestants representing the same betting interest, those who selected the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish shall be winners.

(2) Contestants representing two betting interests, the winning twin quinella wagers shall be determined as if no dead heat occurred.

(3) Contestants representing three or more betting interests, those whose combination included any two of the betting interests finishing in the dead heat shall be winners.

d. In the first twin quinella contest only, if there is a dead heat for second involving contestants representing two or more betting interests, the twin quinella pool shall be distributed to wagers in the following precedence, based upon the official order of finish:

(1) As a profit split to those combining the winner with any of the betting interests involved in the dead heat for second; but if there is only one covered combination, then

(2) As a single-price pool to those combining the winner with the one covered betting interest involved in the dead heat for second; but if there are no such wagers, then

(3) As a profit split to those combining the betting interests involved in the dead heat for second; but if there are no such wagers, then

(4) As a profit split to those whose combination included the winner and any other betting interest and wagers selecting any of the betting interests involved in the dead heat for second; but if there are no such wagers, then

(5) The entire pool shall be refunded on twin quinella wagers for that contest.

e. In the second twin quinella contest only, the entire net twin quinella pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish for the second twin quinella contest:

(1) If a coupled entry or mutuel field finishes as the first two finishers, as a single-price pool to those who selected the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish; otherwise

(2) As a single-price pool to those whose combination finished as the first two betting interests; but if there are no such wagers, then

(3) As a profit split to those whose combination included either the first- or second-place finisher; but if there are no such wagers on one of those two finishers, then

(4) As a single-price pool to those whose combination included the one covered betting interest

included within the first two finishers; but if there are no such wagers, then

(5) As a single-price pool to all the exchange ticket holders for that contest; but if there are no such tickets, then

(6) In accordance with “*b*” of the quinella double rules.

f. In the second twin quinella contest only, if there is a dead heat for first involving:

(1) Contestants representing the same betting interest, the net twin quinella pool shall be distributed to those selecting the coupled entry or mutuel field combined with the next separate betting interest in the official order of finish.

(2) Contestants representing two betting interests, the net twin quinella pool shall be distributed as if no dead heat occurred.

(3) Contestants representing three or more betting interests, the net twin quinella pool shall be distributed as a profit split to those whose combination included any two of the betting interests finishing in the dead heat.

g. In the second twin quinella contest only, if there is a dead heat for second involving contestants representing two or more betting interests, the twin quinella pool shall be distributed to wagers in the following precedence, based upon the official order of finish:

(1) As a split to those combining the winner with any of the betting interests involved in the dead heat for second; but if there is only one covered combination, then

(2) As a single-price pool to those combining the winner with the one covered betting interest involved in the dead heat for second; but if there are no such wagers, then

(3) As a profit split to those combining the betting interests involved in the dead heat for second; but if there are no such wagers, then

(4) As a profit split to those whose combination included the winner and any other betting interest and wagers selecting any of the betting interests involved in the dead heat for second, then

(5) As a single-price pool to all the exchange ticket holders for that contest; but if there are no such tickets, then

(6) In accordance with “*b*” of the twin quinella rules.

h. If a winning ticket for the first half of the twin quinella is not presented for exchange prior to the close of betting on the second-half twin quinella contest, the ticket holder forfeits all rights to any distribution of the twin quinella pool resulting from the outcome of the second contest.

i. Contestants representing the same betting interest, the net twin quinella pool shall be distributed as if no dead heat occurred.

j. Should a betting interest in the first half of the twin quinella be scratched, those twin quinella wagers including the scratched betting interest shall be refunded.

k. Should a betting interest in the second half of the twin quinella be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second twin quinella contest, the ticket holder forfeits all rights to the twin quinella pool.

l. If either of the twin quinella contests is canceled prior to the first twin quinella contest, or the first twin quinella contest is declared “no contest,” the entire twin quinella pool shall be refunded on twin quinella wagers for that contest.

m. If the second-half twin quinella contest is canceled or declared “no contest” after the conclusion of the first twin quinella contest, the net twin quinella pool shall be distributed as a single-price pool to wagers selecting the winning combination in the first twin quinella contest and all valid exchange tickets. If there are no such wagers, the net twin quinella pool shall be distributed as described in “*b*” of the twin quinella rules.

Twin trifecta pools.

a. The twin trifecta requires selection of the first three finishers, in their exact order, in each of two designated contests. Each winning ticket for the first twin trifecta contest must be exchanged for a

free ticket on the second twin trifecta contest in order to remain eligible for the second-half twin trifecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second twin trifecta contest. Winning first-half twin trifecta wagers will receive both an exchange and a monetary payoff. Both of the designated twin trifecta contests shall be included in only one twin trifecta pool.

b. After wagering closes for the first half of the twin trifecta and commissions have been deducted from the pool, the net pool shall then be divided into separate pools: the first-half twin trifecta pool and the second-half twin trifecta pool.

c. In the first twin trifecta contest only, winning wagers shall be determined using the following precedence, based upon the official order of finish for the first twin trifecta contest:

(1) As a single-price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(4) The entire twin trifecta pool shall be refunded on twin trifecta wagers for that contest and the second half shall be canceled.

d. If no first-half twin trifecta ticket selects the first three finishers of that contest in exact order, winning ticket holders shall not receive any exchange tickets for the second half of the twin trifecta pool. In such case, the second-half twin trifecta pool shall be retained and added to any existing twin trifecta carryover pool.

e. Winning tickets from the first half of the twin trifecta shall be exchanged for tickets selecting the first three finishers of the second half of the twin trifecta. The second-half twin trifecta pool shall be distributed to winning wagers in the following precedence, based upon the official order for the second twin trifecta contest:

(1) As a single-price pool, including any existing carryover moneys, to those whose combination finished in correct sequence as the first three betting interests; but if there are no such tickets, then

(2) The entire second-half twin trifecta pool for that contest shall be added to any existing carryover moneys and retained for the corresponding second-half twin trifecta pool of the next consecutive performance.

f. If a winning first-half twin trifecta ticket is not presented for cashing and exchange prior to the second-half twin trifecta contest, the ticket holder may still collect the monetary value associated with the first-half twin trifecta pool but forfeits all rights to any distribution of the second-half twin trifecta pool.

g. Coupled entries and mutuel fields shall be allowed in twin trifecta contests.

h. Should a betting interest in the first half of the twin trifecta be scratched, those twin trifecta wagers including the scratched betting interest shall be refunded.

i. Should a betting interest in the second half of the twin trifecta be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second twin trifecta contest, the ticket holder forfeits all rights to the second-half twin trifecta pool.

j. If, due to a late scratch, the number of betting interests in the second half of the twin trifecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets shall be entitled to the second-half twin trifecta pool for that contest as a single-price pool, but not the twin trifecta carryover.

k. If there is a dead heat or multiple dead heats in either the first or second half of the twin trifecta, all twin trifecta wagers selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be a winner. In the case of a dead heat occurring in:

(1) The first half of the twin trifecta, the payoff shall be calculated as a profit split.

(2) The second half of the twin trifecta, the payoff shall be calculated as a single-price pool.

l. If either of the twin trifecta contests is canceled prior to the first twin trifecta contest, or the first twin trifecta contest is declared “no contest,” the entire twin trifecta pool shall be refunded on twin trifecta wagers for that contest and the second half shall be canceled.

m. If the second-half twin trifecta contest is canceled or declared “no contest,” all exchange tickets and outstanding first-half winning twin trifecta tickets shall be entitled to the net twin trifecta pool for that contest as a single-price pool, but not twin trifecta carryover. If there are no such tickets, the net twin trifecta pool shall be distributed as described in “*c*” of the twin trifecta rules.

n. The twin trifecta carryover may be capped at a designated level approved by the administrator so that if, at the close of any performance, the amount in the twin trifecta carryover equals or exceeds the designated cap, the twin trifecta carryover will be frozen until it is won or distributed under other provisions of this subrule. After the twin trifecta carryover is frozen, 100 percent of the net twin trifecta pool for each individual contest shall be distributed to winners of the first half of the twin trifecta pool.

o. A written request for permission to distribute the twin trifecta carryover on a specific performance may be submitted to the administrator. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

p. Should the twin trifecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second half of the twin trifecta after completion of the first half of the twin trifecta:

(1) As a single-price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(4) As a single-price pool to holders of valid exchange tickets.

(5) As a single-price pool to holders of outstanding first-half winning tickets.

q. Contrary to “*d*” of the twin trifecta rules, during a performance designated to distribute the twin trifecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first half of the twin trifecta. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first half of the twin trifecta, all first-half tickets will become winners and will receive 100 percent of that day’s net twin trifecta pool and any existing twin trifecta carryover as a single-price pool.

r. The twin trifecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

(1) Upon written approval from the administrator as provided in “*o*” of the twin trifecta rules.

(2) Upon written approval from the administrator when there is a change in the carryover cap or when the twin trifecta is discontinued.

(3) On the closing performance of the meet or split meet.

s. If, for any reason, the twin trifecta carryover must be carried over to the corresponding twin trifecta pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the administrator. The twin trifecta carryover plus accrued interest shall then be added to the second-half twin trifecta pool of the following meet on a date and performance so designated by the administrator.

t. Providing information to any person regarding covered combinations, amounts wagered on

specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited, unless permission is granted by the administrator. This shall not prohibit necessary communication between totalizator and pari-mutuel department employees' processing of pool data.

u. The association must obtain written approval from the administrator concerning the scheduling of twin trifecta contests, the percentages of the net pool added to the first-half pool and second-half pool, and the designated amount of any cap to be set on the carryover. Any subsequent changes to the twin trifecta rules require prior approval from the administrator.

Tri-superfecta pools.

a. The tri-superfecta requires selection of the first three finishers, in their exact order, in the first of two designated contests and the first four finishers, in exact order, in the second of the two designated contests. Each winning ticket for the first tri-superfecta contest must be exchanged for a free ticket on the second tri-superfecta contest in order to remain eligible for the second-half tri-superfecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second tri-superfecta contest. Winning first-half tri-superfecta tickets will receive both an exchange and a monetary payoff. Both of the designated tri-superfecta contests shall be included in only one tri-superfecta pool.

b. After wagering closes for the first half of the tri-superfecta and commissions have been deducted from the pool, the net pool shall then be divided into two separate pools: the first-half tri-superfecta pool and the second-half tri-superfecta pool.

c. In the first tri-superfecta contest only, winning tickets shall be determined using the following precedence, based upon the official order of finish for the first tri-superfecta contest:

(1) As a single-price pool to those whose combination finished in correct sequence as the first three betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(4) The entire tri-superfecta pool shall be refunded on tri-superfecta wagers for that contest and the second half shall be canceled.

d. If no first-half tri-superfecta ticket selects the first three finishers of that contest in exact order, winning ticket holders shall not receive any exchange tickets for the second-half tri-superfecta pool. In such case, the second-half tri-superfecta pool shall be retained and added to any existing tri-superfecta carryover pool.

e. Winning tickets from the first half of the tri-superfecta shall be exchanged for tickets selecting the first four finishers of the second half of the tri-superfecta. The second-half tri-superfecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish for the second tri-superfecta contest:

(1) As a single-price pool, including any existing carryover moneys, to those whose combination finished in correct sequence as the first four betting interests; but if there are no such tickets, then

(2) The entire second-half tri-superfecta pool for that contest shall be added to any existing carryover moneys and retained for the corresponding second-half tri-superfecta pool of the next performance.

f. If a winning first-half tri-superfecta ticket is not presented for cashing and exchange prior to the second-half tri-superfecta contest, the ticket holder may still collect the monetary value associated with the first-half tri-superfecta pool but forfeits all rights to any distribution of the second-half tri-superfecta pool.

g. Should a betting interest in the first half of the tri-superfecta be scratched, those tri-superfecta tickets including the scratched betting interest shall be refunded.

h. Should a betting interest in the second half of the tri-superfecta be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be

provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second tri-superfecta contest, the ticket holder forfeits all rights to the second-half tri-superfecta pool.

i. If, due to a late scratch, the number of betting interests in the second half of the tri-superfecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets shall be entitled to the second-half tri-superfecta pool for that contest as a single-price pool, but not the tri-superfecta carryover..

j. If there is a dead heat or multiple dead heats in either the first or second half of the tri-superfecta, all tri-superfecta tickets selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be a winner. In the case of a dead heat occurring in:

- (1) The first half of the tri-superfecta, the payoff shall be calculated as a profit split.
- (2) The second half of the tri-superfecta, the payoff shall be calculated as a single-price pool.

k. If either of the tri-superfecta contests is canceled prior to the first tri-superfecta contest, or the first tri-superfecta contest is declared “no contest,” the entire tri-superfecta pool shall be refunded on tri-superfecta wagers for that contest and the second half shall be canceled.

l. If the second-half tri-superfecta contest is canceled or declared “no contest,” all exchange tickets and outstanding first-half winning tri-superfecta tickets shall be entitled to the net tri-superfecta pool for that contest as a single-price pool, but not the tri-superfecta carryover. If there are no such tickets, the net tri-superfecta pool shall be distributed as described in “*c*” of the tri-superfecta rules.

m. The tri-superfecta carryover may be capped at a designated level approved by the administrator so that if, at the close of any performance, the amount in the tri-superfecta carryover equals or exceeds the designated cap, the tri-superfecta carryover will be frozen until it is won or distributed under other provisions of this subrule. After the second-half tri-superfecta carryover is frozen, 100 percent of the tri-superfecta pool for each individual contest shall be distributed to winners of the first half of the tri-superfecta pool.

n. A written request for permission to distribute the tri-superfecta carryover on a specific performance may be submitted to the administrator. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

o. Should the tri-superfecta carryover be designated for distribution on a specified date and performance, the following precedence will be followed in determining winning tickets for the second half of the tri-superfecta after completion of the first half of the tri-superfecta:

- (1) As a single-price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then
- (2) As a single-price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then
- (3) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
- (4) As a single-price pool to those whose combination included, in correct sequence, the first-place betting interests only; but if there are no such wagers, then
- (5) As a single-price pool to holders of valid exchange tickets.
- (6) As a single-price pool to holders of outstanding first-half winning tickets.

p. Contrary to “*d*” of the tri-superfecta rules, during a performance designated to distribute the tri-superfecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first half of the tri-superfecta. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first

half of the tri-superfecta, all first-half tickets will become winners and will receive 100 percent of the day's net tri-superfecta pool and any existing tri-superfecta carryover as a single-price pool.

q. The tri-superfecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

(1) Upon written approval from the administrator as provided in "o" of the tri-superfecta rules.

(2) Upon written approval from the administrator when there is a change in the carryover cap or when the tri-superfecta is discontinued.

(3) On the closing performance of the meet or split meet.

r. If, for any reason, the tri-superfecta carryover must be carried over to the corresponding tri-superfecta pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the administrator. The tri-superfecta carryover plus accrued interest shall then be added to the second-half tri-superfecta pool of the following meet on a date and performance so designated by the administrator.

s. Providing information to any person regarding covered combinations, amounts wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited, unless permission has been granted by the administrator. This shall not prohibit necessary communication between totalizator and pari-mutuel department employees for processing of pool data.

t. The association must obtain written approval from the administrator concerning the scheduling of tri-superfecta contests, the percentages of the net pool added to the first-half pool and second-half pool, and the designated amount of any cap to be set on the carryover. Any subsequent changes to the tri-superfecta rules require prior approval from the administrator.

Twin superfecta pools.

a. The twin superfecta requires selection of the first four finishers, in their exact order, in each of two designated contests. Each winning ticket for the first twin superfecta contest must be exchanged for a free ticket on the second twin superfecta contest in order to remain eligible for the second-half twin superfecta pool. Such tickets may be exchanged only at attended ticket windows prior to the second twin superfecta contest. Winning first-half twin superfecta tickets will receive both an exchange and a monetary payoff. Both of the designated twin superfecta contests shall be included in only one twin superfecta pool.

b. After wagering closes for the first half of the twin superfecta and commissions have been deducted from the pool, the net pool shall then be divided into two separate pools: the first-half twin superfecta pool and the second-half twin superfecta pool.

c. In the first twin superfecta contest only, winning wagers shall be determined using the following precedence, based upon the official order of finish for the first twin superfecta contest:

(1) As a single-price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(4) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(5) The entire twin superfecta pool shall be refunded on twin superfecta wagers for that contest and the second half shall be canceled.

d. If no first-half twin superfecta ticket selects the first four finishers of that contest in exact order, winning ticket holders shall not receive any exchange tickets for the second-half twin superfecta pool. In such case, the second-half twin superfecta pool shall be retained and added to any existing twin superfecta carryover pool.

e. Winning tickets from the first half of the twin superfecta shall be exchanged for tickets

selecting the first four finishers of the second half of the twin superfecta. The second-half twin superfecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish for the second twin superfecta contest:

(1) As a single-price pool, including any existing carryover moneys, to those whose combination finished in correct sequence as the first four betting interests; but if there are no such tickets, then

(2) The entire second-half twin trifecta pool for that contest shall be added to any existing carryover moneys and retained for the corresponding second-half twin superfecta pool of the next performance. The additional second-half twin superfecta moneys resulting from such a carryover shall be termed the "twin superfecta carryover."

f. If a winning first-half twin superfecta ticket is not presented for cashing and exchange prior to the second-half twin superfecta contest, the ticket holder may still collect the monetary value associated with the first-half twin superfecta pool but forfeits all rights to any distribution of the second-half twin trifecta pool.

g. Coupled entries and mutuel fields shall be prohibited in twin superfecta contests.

h. Should a betting interest in the first half of the twin superfecta be scratched, those twin superfecta tickets including the scratched betting interest shall be refunded.

i. Should a betting interest in the second half of the twin superfecta be scratched, an announcement concerning the scratch shall be made and a reasonable amount of time shall be provided for exchange of tickets that include the scratched betting interest. If tickets have not been exchanged prior to the close of betting for the second twin superfecta contest, the ticket holder forfeits all rights to the second-half twin superfecta pool.

j. If, due to a late scratch, the number of betting interests in the second half of the twin superfecta is reduced to fewer than the minimum, all exchange tickets and outstanding first-half winning tickets shall be entitled to the second-half twin superfecta pool for that contest as a single-price pool, but not the twin superfecta carryover.

k. If there is a dead heat or multiple dead heats in either the first or second half of the twin superfecta, all twin superfecta tickets selecting the correct order of finish, counting a betting interest involved in a dead heat as finishing in any dead-heated position, shall be a winner. In the case of a dead heat occurring in:

(1) The first half of the twin superfecta, the payoff shall be calculated as a profit split.

(2) The second half of the twin superfecta, the payoff shall be calculated as a single-price pool.

l. If either of the twin superfecta contests are canceled prior to the first twin superfecta contest, or the first twin superfecta contest is declared "no contest," the entire twin superfecta pool shall be refunded on twin superfecta wagers for that contest and the second half shall be canceled.

m. If the second-half twin superfecta contest is canceled or declared "no contest," all exchange tickets and outstanding first-half winning twin superfecta tickets shall be entitled to the net twin superfecta pool for that contest as a single-price pool, but not the twin superfecta carryover. If there are no such tickets, the net twin superfecta pool shall be distributed as described in "c" of the twin superfecta rules.

n. The twin superfecta carryover may be capped at a designated level approved by the administrator so that if, at the close of any performance, the amount in the twin superfecta carryover equals or exceeds the designated cap, the twin superfecta carryover will be frozen until it is won or distributed under other provisions of this subrule. After the second-half twin superfecta carryover is frozen, 100 percent of the net twin superfecta pool for each individual contest shall be distributed to winners of the first half of the twin superfecta pool.

o. A written request for permission to distribute the twin superfecta carryover on a specific performance may be submitted to the administrator. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

p. Should the twin superfecta carryover be designated for distribution of a specified date and performance, the following precedence will be followed in determining winning tickets for the second

half of the twin superfecta after completion of the first half of the twin superfecta:

(1) As a single-price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then

(2) As a single-price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then

(3) As a single-price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then

(4) As a single-price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then

(5) As a single-price pool to holders of valid exchange tickets.

(6) As a single-price pool to holders of outstanding first-half winning tickets.

q. Contrary to “*d*” of the twin superfecta rules, during a performance designated to distribute the twin superfecta carryover, exchange tickets will be issued for those combinations selecting the greatest number of betting interests in their correct order of finish for the first half of the twin superfecta. If there are no wagers correctly selecting the first-, second-, third-, and fourth-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-, second-, and third-place betting interests. If there are no wagers correctly selecting the first-, second-, and third-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first- and second-place betting interests. If there are no wagers correctly selecting the first- and second-place finishers, in their exact order, then exchange tickets shall be issued for combinations correctly selecting the first-place betting interest only. If there are no wagers selecting the first-place betting interest only in the first half of the twin superfecta, all first-half tickets will become winners and will receive 100 percent of that day’s net twin superfecta pool and any existing twin superfecta carryover as a single-price pool.

r. The twin superfecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

(1) Upon written approval from the administrator as provided in “*o*” of the twin superfecta rules.

(2) Upon written approval from the administrator when there is a change in the carryover cap or when the twin superfecta is discontinued.

(3) On the closing performance of the meet or split meet.

s. If, for any reason, the twin superfecta carryover must be carried over to the corresponding twin superfecta pool of a subsequent meet, the carryover shall be deposited in an interest-bearing account approved by the administrator. The twin superfecta carryover plus accrued interest shall then be added to the second-half twin superfecta pool of the following meet on a date and performance so designated by the administrator.

t. Providing information to any person regarding covered combinations, amount wagered on specific combinations, number of tickets sold, or number of valid exchange tickets is prohibited, unless permission has been granted by the administrator. This shall not prohibit necessary communication between totalizator and pari-mutuel department employees for processing of pool data.

u. The association must obtain written approval from the administrator concerning the scheduling of twin superfecta contests, the percentages of the net pool added to the first-half pool and second-half pool, and the designated amount of any cap to be set on the carryover. Any subsequent changes to the twin superfecta rules require prior approval from the administrator.

Pentafecta Pools (may also be referred to as Super High 5 or Super Hi 5)

a. The Pentafecta requires selection of the first five finishers, in their exact order, for a single contest.

b. Distribution of Winnings – Option #1

(1) The net Pentafecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish

- i. As a single price pool to those whose combination finished in correct sequence as the first five betting interests; but if there are no such wagers, then
- ii. As a single price pool to those whose combination finished in correct sequence as the first four betting interests; but if there are no such wagers, then
- iii. As a single price pool to those whose combination included, in correct sequence, the first three betting interests; but if there are no such wagers, then
- iv. As a single price pool to those whose combination included, in correct sequence, the first two betting interests; but if there are no such wagers, then
- v. As a single price pool to those whose combination correctly selected the first-place betting interest only; but if there are no such wagers, then
- vi. The entire pool shall be refunded on Pentafecta wagers for that contest.

c. Distribution of Winnings – Option #2

(1) The net Pentafecta pool shall be distributed to winning wagers in the following precedence, based on the official order of finish:

- i. As a single price pool, including any applicable carryover, to those whose combination finished in correct sequence as the first five betting interests, but if there are no such wagers, then
- ii. The net pool will be divided into two separate pools. The major pool of the net pool shall be retained and added to a corresponding carryover pool into the next designated Pentafecta race. The remaining minor pool shall be paid as a Pentafecta consolation pool, which will be equally divided among those ticket holders who correctly select the first four betting interests, but if there are no such wagers, then
- iii. The Pentafecta consolation pool will be divided among those ticket holders who correctly select the first three interests, but if there are no such wagers, then
- iv. The Pentafecta consolation pool will be divided among those ticket holders who correctly select the first two interests, but if there are no such wagers, then
- v. The Pentafecta consolation pool will be divided among those ticket holders who correctly select the first betting interest, but if there are no such wagers, then
- vi. The entire net pool shall become a carryover pool to be retained and added to the next designated Pentafecta race.

(2) On the last Pentafecta race on the final day of the meeting, the net pool, including any applicable carryover shall be distributed using the method described in subsection *b*.

(3) Where a net pool is divided into two separate pools in accordance with this subsection any odd cents remaining shall be retained and added to the part of the net pool that will be added to the corresponding carryover pool.

d. Distribution of Winnings – Option #3

(1) The net Pentafecta pool shall be distributed to winning wagers in the following precedence, based upon the official order of finish.

- i. As a single price pool, including any carryover, to the holder of a unique winning ticket whose combination finished in correct sequence as the first five betting interests, but if there is no such unique winning ticket, then
- ii. The net pool will be divided into two separate pools. The major pool of the net pool shall be paid as a carryover pool into the next regularly scheduled Pentafecta race. The remaining minor pool shall be paid as a Pentafecta consolation pool, which will be equally divided among those ticket holders who correctly select the first five interests, but if there are no such wagers, then
- iii. The entire net pool shall become a carryover pool into the next regularly schedule Pentafecta race.

(2) Unique winning ticket shall be defined as having occurred when there is one and only one winning ticket whose combination finished in correct sequence as the first five betting interests, to be verified by the unique serial number assigned by the totalisator company that issued the winning ticket. In the event that there is more than one winning ticket whose combination finished in correct sequence as the first five betting interests, the unique winning ticket shall be deemed to not have occurred.

(3) On the last Pentafecta race on the final day of the meeting, the net pool, including any applicable carryover shall be distributed using the method described in subsection *b*.

(4) Where a net pool is divided into two separate pools in accordance with this subsection any odd cents remaining shall be retained and added to the part of the net pool that will be added to the corresponding carryover pool.

e. If fewer than five betting interests finish and the contest is declared official, payoffs will be made based upon the order of finish of those betting interests completing the contest. The balance of any selection on any ticket beyond the number of betting interests completing the contest shall be ignored. If the pools are being distributed under paragraph *c*(1) any previous Pentafecta contest's carryover will not be included in the payoff and will be retained for the next contest's carryover, and this contest's net Pentafecta pool will be distributed using the method described in subsection *b*.

f. If there is a dead heat for first involving:

(1) contestants representing five or more betting interests, all of the wagering combinations selecting the five betting interests, irrespective of order, shall share in a profit split.

(2) contestants representing four betting interests, all of the wagering combinations selecting the four dead heated betting interests, irrespective of order, along with the fifth place betting interest shall share in a profit split.

(3) contestants representing three betting interests, all of the wagering combinations selecting the three dead heated betting interests, irrespective of order, along with the fourth place and fifth place betting interests, in correct order, shall share in a profit split.

(4) contestants representing two betting interests, both of the wagering combinations selecting the two dead heated betting interests, irrespective of order, along with the third place, fourth place and fifth place betting interests, in correct order, shall share in a profit split.

g. If there is a dead heat for second involving:

(1) contestants representing four or more betting interests, all of the wagering combinations correctly selecting the winner along with the four dead heated betting interests shall share in a profit split.

(2) contestants representing three betting interests, all of the wagering combinations correctly selecting the winner, the three dead heated betting interests, irrespective of order, and the fifth place betting interests shall share in a profit split.

(3) contestants representing two betting interests, all of the wagering combinations correctly selecting the winner, the two dead heated betting interests, irrespective of order, and the fourth place and fifth place betting interests, in correct order, shall share in a profit split.

h. If there is a dead heat for third involving:

(1) contestants representing three or more betting interests, all of the wagering combinations correctly selecting the first two finishers, in correct order, and the three dead heated betting interests, irrespective of order, shall share in a profit split.

(2) contestants representing two betting interests, both of the wagering combinations selecting the first two finishers, in correct order, and the two dead heated betting interests, irrespective of order, along with the fifth place betting interest shall share in a profit split.

i. If there is a dead heat for fourth, all wagering combinations correctly selecting the first three finishers, in correct sequence, along with any two of the betting interests involved in the dead heat for fourth, irrespective of order, shall share in a profit split.

j. If there is a dead heat for fifth, all wagering combinations correctly selecting the first four finishers, in correct sequence, along with any of the betting interests involved in the dead heat for fifth shall share in a profit split.

k. In the event that more than one component of a coupled entry or mutuel field finishes within the first five positions, the first member of the coupled entry or mutuel field to finish shall determine the position of the single betting interest. The net pool shall be distributed to those whose selection included the coupled entry or mutuel field and each of the other four betting interests.

l. A written request for permission to distribute the Pentafecta carryover on a specific performance may be submitted to the administrator. The request must contain justification for the distribution, an explanation of the benefit to be derived, and the intended date and performance for the distribution.

m. Should the Pentafecta carryover be designated for distribution on a specified date and performance in which there are no wagers selecting the first five betting interests, the entire pool shall be distributed as a single-price pool to those whose selection finished with the greatest number of betting interests. The Pentafecta carryover shall be designated for distribution on a specified date and performance only under the following circumstances:

- (1) Upon written approval from the administrator as provided.
- (2) On the closing performance of the meet or split meet.
