

Amendments to published monthly reports – FY2025

01/10/2025 – The reported statistics for Number of Fantasy Sports Contests for DraftKings for November 2024 was incorrect. The number on the previous version was 735,553 contests which has been corrected to 254,098 contests. While the overall fantasy sports revenue numbers were correct, the number of contests originally reflected the nationwide number rather than being Iowa specific. The November 2024 report was corrected to reflect the correct statistical information, and future FY reports for this fiscal year also correctly accounted for the statistical information in this category.

03/19/2025 – The reported statistics for Fantasy Sports Revenue for February 2025 were incorrect. The Tax Credit lines for FanDuel Inc and Crown DFS Inc (DraftKings) were incorrect. FanDuel showed a total of \$0.00 and Crown DFS Inc (DraftKings) showed \$7,749.65. The correct totals are FanDuel \$711.48 and Crown DFS Inc (DraftKings) \$3,546.21. This error was identified and amended immediately. These numbers were corrected on the FYTD 2025 report as well.
