

# Amendments to published monthly reports – FY2026

02/06/2026 – The following gaming revenue statistics changes have been made and reported.

- Grand Falls Casino & Resort incorrectly reported revenue as table game revenue rather than slot machine revenue. The December 2025 initial report showed incorrect table game and slot machine revenue for Grand Falls Casino & Resort.
- Hard Rock Casino incorrectly reported casino square footage. Changes to the gaming floor were approved in December but the December submission did not reflect those changes.
- Rhythm City incorrectly reported revenue for blackjack in December 2025. Rhythm City posted this revenue under poker but the facility does not have poker.

The report for December 2025 was corrected and changes made to the FY2026 are reflected in the January FY2026 posting.
